

BOLDER

ARCHITECTURE, PLLC

THE PRESERVE AT MOUNTAIN VISTA

BOLDER Architecture, PLLC is the architect for The Preserve, a zero-net energy development of 9 single family homes in New Paltz, NY developed by Greenhill Contracting, Inc.

BOLDER Architecture is also the architect for Green Acres, the first zero-net energy development in the nation, also in New Paltz and also developed by Greenhill Contracting, Inc. The first 7 of 25 homes at Green Acres have been completed.

BOLDER Architecture has designed deep energy retrofits of existing homes, as well as super energy-efficient commercial buildings. The firm's work includes a wide variety of new construction and renovation / addition projects for residential, commercial and non-profit organizations, including Mount Academy and Highland Landing Park on the Hudson River. Historic renovations are also a specialty, especially the seamless incorporation of modern systems in a way that enhances the aesthetic appeal, inside and out.

David Toder, RA is the principal of BOLDER Architecture, PLLC. More information and project photos are available at Bolder-Architecture.com, and contact the firm directly at 845-532-8354 or BolderArchitect@aol.com
